Subject: Could I have a sequence rush?

Hi,

I just got a case (09/316,048; Inventor Desgroseillers et al.) from the attorneys that is in condition for allowance. Could I have a sequence search rush done on it, please?

The searches that need to be done are:

1. nucleic acids encoding SEQ ID NO. 2, 4, 8.
2. nucleic acids of SEQ ID NO. 1, 3, 5, 6, 7.

I inherited the case from Ram Shukla who said at the time the case was first filed, there were no restrictions on number of sequences searched. As a result, all 8 sequences were part of the case.

Thanks!

Joanne Hama, Ph.D.
